Télécom Saint-Étienne :Master Web-Intelligence

Web Services (TD4)

Binôme : Yishuo LYU, Zunzun WANG

Question 2.2: compare the method you write, with the method of TD2. Please explain the difference between RESTful Services and SOAP services.

R: For the RESTful Services, we should add the multiple arguments of path by "@PathParam" annotation.

Test the same URL, what do you get?

R: Testing the same URL, we can get the result in the type of JSON and the result in the type of XML.
